INTRODUCTION

Born from the Experience of the Finest Vertical Mobility Craftsmanship, the ECO PLANET ELEVATORS is a Custom Home Elevator / Commercial Elevator Brand in India conceived to integrate into your home and commercial establishment and be itself as an element of design. As a fully integrated Indian Elevator Company with affordable home elevators where we Design, Engineer, Install, and Maintain Vertical Transport Systems that comply with the Latest technology and Global Standards.

We began our journey with a simple concept: to achieve excellence in field of vertical Mobility. Since a decade in the field of installation, modernization and maintenance of elevators, Eco Planet Elevators & Escalators Management brings deep expertise in the field of Vertical Mobility Technology. Every product, whether custom-built to client specifications or part of a larger vertical Mobility line, is subject to stringent testing by our in- house R&D team. Our commitment and dedication is to give our customers a superior and reliable product with excellent quality and service.

This line of Custom Elevators features a Series of beautiful cabins designed to meet different tastes and styles: Basic Series, Classic Series, Premium Series and Luxury Series. Eco Planet Elevators is a brand Synonymous with Elegance, Style and Culture of Innovation. With fleeting advancements in Technology, Customization is the key differentiator. We, at Eco Planet Elevators are one of the very few, offering complete Customization of Elevators based on Customer Preferences. All our lifts can be customized for Interiors, Lighting and Control Panels that match the decor of your premises.

IN ASSOCIATION WITH

Montanari

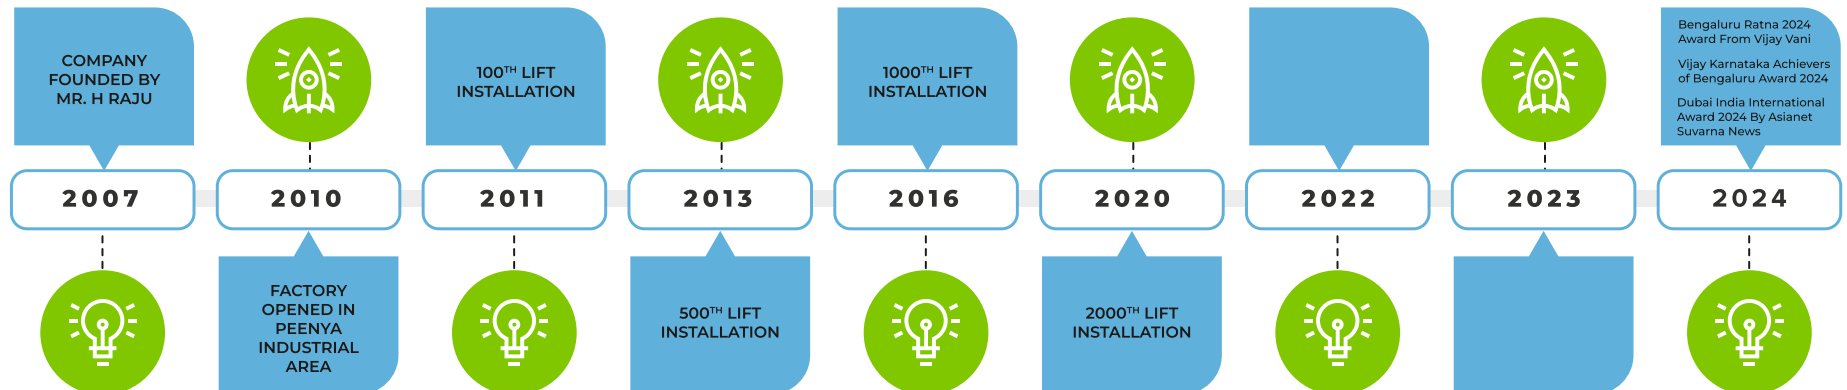

MISSION

We are committed to elevating the maximum number of passengers and freight with utmost safety and ease. We can achieve this by penetrating deeper into the target segments and providing optimum value.

VISION

To be the most Preferred Home Elevator Brand in the Vertical Mobility Solutions Segment in India by 2025.

MILESTONE

WHY ECO PLANET: HIGHLIGHTS

Quality that will enhance your Building's Value

With a decade long history of Expertise and Market-Leading Innovations in Designs, Eco Planet Elevators has grown to become one of the leading elevator company in India. Our success is built on German Precision Engineering, Stringent Processes and Strict International Code Compliance, so that Eco Planet will enhance any Building's Value.

Specifications to meet your Building's needs

Specifications for Architectural and built environment projects, give construction teams a detailed written description of the project work to be carried out, usually including performance, standards, regulations and product selections. Our Elevators are Technically and Aesthetically designed to match those needs.

Designs to match your Building's Style

Our team of experienced designers has studied the latest trends to bring you a range of premium quality cabins that will underline your commitment to style and your building's premium. Using high-end materials, we offer a range of finishes, color coatings, mirror finish and etched stainless steel.

Enhanced Safety and Security Systems

Should power fail, the Automatic Rescue Device (ARD) releases passengers on the nearest floor for immediate exit. Our in-car camera helps property management to monitor the situation and our voice calm-down function will be activated to keep passengers notified and reduce their stress.

Layout flexibility

Eco Planet Elevators are easily configured to meet the unique specifications and needs of your building. The entire system can be self-contained within the hoist-way to speed installation and save valuable space.

Freedom of Design

From Functional to Sophisticated, Pre-Configured to Custom made – our Design options gives you the freedom to create stylish Elevators that are the perfect complement to your building.

ECO PLANET ADVANTAGES

German Precision Elevators Specially Engineered in India

- **Comfort & Quietness:** For maximum passenger comfort, our elevators are equipped with an ultra-smooth drive system (gearless motor system) ensuring extremely silent and smooth movements during start, accelerate and deceleration.
- **Stringent Quality Controls**
- **Proactive Response System Using the I.O.T Platform**
- **Energy Efficient:** Our flat-belt technology, drives and gearless machines make our elevators among the most energy-efficient elevators on the planet.
- **Simple Maintenance:** Thanks to its integrated and consistent design, the Eco Planet Elevators is a quality product born from strong manufacturing & engineering experience. Thus it requires minimal and basic service.
- **Unparalleled Customer Service:** We operate through a network of Selected Highly Professional and Licensed Technicians who are periodically trained on site.

Reliability: Built with a lifetime of Service in mind, every Generation Next Elevators offers Superior Quality and Reliability.

DESIGN & INTERIOR: LUXURY CABINS

The New LUXURY Series redefines Simplicity giving you Vertical Transportation Experience with wide range of technologically advanced features with German Precision & Craftsmanship at its heart. Eco Planet Elevators in collaboration with ZIELHL ABEGG, Germany, you can experience our elevators crafted for unparalleled comfort and performance to suit your needs.

Capsule Elevators

Panoramic Design

Capsule elevators: Exquisite Design, meticulous planning, and panoramic glass panels for an unparalleled view

High Quality

Every part used for the manufacturing of the elevator is precisely designed and of ensure supreme quality.

Easy & Quick Installation

Elevators do not take to be installed and set up.

Economical

Purchasing a capsule elevator can an economical option when compared to the other elevator alternatives available

Reliable and Safe

Capsule elevators are utmost safety and reliability, powered by cutting-edge tech and premium components.

Minimum Maintenance

Capsule elevators need minimal maintenance, usually just annual serving to ensure proper operation

Smooth Operation

Parts and equipment are carefully designed, placed, and assembled for reliable & efficient elevator operation.

FEATURES:

- **Panoramic Design:** Capsule elevators are beautifully designed and precisely planned. They have a complete glass panel which provides an excellent view while in the lift.
- **High Quality:** Every part used for the manufacturing of the elevator is precisely designed and of ensured supreme quality.
- **Easy and Quick Installation:** Capsule Elevators do not take a lot of time to be installed and set up.
- **Economical:** Purchasing a capsule elevator can be an economical option when compared to other elevator alternatives available.
- **Reliable and Safe:** Capsule elevators are completely safe and reliable as their functioning and operation are facilitated by the latest technology and finest parts.
- **Minimum Maintenance** Capsule elevators do not demand high or regular maintenance from your part. They often require maintenance or servicing annually to ensure that all the parts are in proper condition and running properly.
- **Smooth Operation** All the parts and equipment are strategically designed, placed and assembled to ensure the long and efficient running of the elevator.

(Without Machine
Room) Elevator

Designed with ability to move
medical equipment with an
optimum mix of fixture

Wide Door Opening
options ranging from
900mm to 1500mm

Designed to carry
up to 26 passengers

FEATURES:

- Designed to carry Patients on Stretchers or Wheel-Chairs
- Designed with ability to move Medical Equipment's with an optimum mix of fixtures
- Designed to carry up to 26 Passengers
- Wide Door Opening Options ranging from 900 MM to 1500 MM
- UCM Device (For Car & Counter Track)
- Live Monitoring Facility
- Live Intercom Facility
- Can be Operated through MOBILE APP
- Ultra Smooth Ride
- Auto Break System

Escalators

SAFE AND RELIABLE

Eco Planet prioritizes passenger safety with industry-leading standards for a secure and dependable journey.

COMPACT DESIGN

A new compact design for more business space in your buildings

ENERGY EFFICIENT

Integrated with our latest energy saving technology, our escalator has a best in class energy rating of A+++

ENHANCED ADAPTABILITY

Distinctive custom design options for seamless integration in small commercial spaces and upscale shopping centers.

FEATURES:

- Designed to carry Patients on Stretchers or Wheel-Chairs
- Designed with ability to move Medical Equipment's with an optimum mix of fixtures
- Designed to carry up to 26 Passengers
- Wide Door Opening Options ranging from 900 MM to 1500 MM
- UCM Device (For Car & Counter Track)
- Live Monitoring Facility
- Live Intercom Facility
- Can be Operated through MOBILE APP
- Ultra Smooth Ride
- Auto Break System

eco BASIC SERIES

Minimalistic, Simple and Reliable!!!

With ECO BASIC SERIES elevating is made simple and Minimalistic in design. Our Elevators are Easy to Choose, plan and easy to use. It's Safe, Secure, Simple yet Stylish and Strong. Our Elevators are designed to meet and serve Mid-Rise Residential Buildings, comfortably, quietly, efficiently and with style. Eco BASIC SERIES effectively combines Advanced Technology with latest features that brings comfort within everyone's reach. While users experience remarkable ride comfort, building owners get an economical solution with multiple savings. This Series brings the comfort of gearless technology to your buildings. Created to enhance the modern and contemporary look of low, mid & high-rise residential buildings and low & mid-rise commercial buildings.

ADVANTAGES of ECO BASIC SERIES:

- Gearless Technology delivers better Ride Comfort.
- Aesthetics design that is pleasing to the senses.
- Utilizes Less Energy than geared machines & Improves Safety

APPLICATION RANGE (MRL)

Passenger Capacity	4 - 30 Pax
Loads (Kgs)	272 - 2040 Kgs
Pit Requirement	1500 mm (5 Ft)
Head Room Requirement	5000 mm (15 Ft from FFL)
Travel Height Range	Upto 36 Mtrs
Stops	Upto 12 Stops
Speed	1.0 - 1.5 MPS
Controller	Simplex Full Collective
Machine Type	PMSM Gearless Machine
Drive	Arkel with Variable Voltage Variable Frequency (VVVF Drive)
Motor	Montenary / Nidec(KDS)
Controller	ARKEL Microprocessor Based with IoT Technology
Steel	Jindal SS 304 Grade Rust Proof Hairline Finish with 1.2 mm Thick
Guid rails	Monteferro
Rope	Usha Martin / Gutsvauf
Travelling Cables	Finolex / Microtherm
Door Operator	Genesis / Wittur
Main Power Supply	415 Volts, 3 Phase, 50Hz AC

*Cabin Designs that
elevate your sense.*

eco Classic SERIES

Stylish yet Functional &Flexible!!!

ECO CLASSIC SERIES designs are based on the many elements now come in more distinct finishes as well. Along with the popular regular Stainless Steel Finish, the Cabin interiors are offered in such tantalizing finishes as Wood Fusion, Art Décor Panels, Stainless Steel with Exotic Motif that are designed to complement every building's unique design style. With many Panel design options, this series offers flexibility and ease of choice when it comes to selecting the elevator that ideally suits your building's aesthetic needs. Each design sets a modern benchmark for buildings with its stand-alone finish, exclusive patterns and user-friendly interfaces. Our flexible solution that unifies form and function, Eco Classic Series is the all-round elevator, with outstanding architectural flexibility for car, door, and shaft dimensions. And, with German precision engineering and the latest technologies, our passengers are ensured a smooth and safe user experience. We've engineered this Series to ensure Smooth, Quiet, and Economical operation throughout your elevator's long life cycle, for every application, and in any environment.

eco Luxuria

MAHARJA SERIES

Redefining Luxury in Vertical Transportation!!!

Compared to the Standard models, the luxury lifts come with enormous benefits. The advancement in technology further encourages integrating many new feature and specifications to the lifts. This further increases the lift's functionalities and performance. The luxury lifts feature high-end designs. They are made of top quality materials and offer various material choices to build your own lift. You are absolutely flexible to customize the lift that can suit your home interior and space available. The need to make modifications in your existing home can be completely eliminated by customizing the luxury lift according to the requirements. The content of many advanced features and specifications would certainly distinguish the luxury lifts from other models. Perhaps, they also make the difference in cost. However, something that you can assure to experience from the luxury lift is the smooth operation with automated features. Home lifts are the luxury statement.

20 Safety Elements

RIDE IN CONFIDENCE WITH ECO PLANET ELEVATORS

UCM DEVICE

- This Device protects against Unintended Car Movement caused by snapping of ropes and it works on a Double Roller.
- UCM is activated by Over Speed Governors in case of Lift Crossing the Limit Speed.

ACCESS CONTROL

- These Devices are used to Control unauthorized and unwanted guests.
- To Limit the access of people with Smart Security systems

DOOR SENSORS / LIGHT CURTAINS

- This System adopts the dense Infrared Light Curtain to form a Light Curtain Protection Safety Net at the entrance of the Elevator and can quickly respond to any person or object entering the cabin.

ELEVATOR CONTROLLER PANEL FEATURES

- IOT Technology
- Live Intercom Facility
- Live Monitoring with Mobile app
- Live Remote Elevator Monitoring Solving Errors Remotely
- Cloud Monitoring & GSM Intercom
- Child Lock option with warning alarm
- Energy saving mode.
- Fire-fighters mode
- Instant Alarm & Error Notifications via SMS & Email.
- Smooth running of Elevators with Minimal Break Downs
- Easy Connection using only Single cables
- Controllers accompanies Auto Rescue Device (ADR) as per Load Capacity
- No need electrical connections between controller and inverter
- Less component and easy troubleshooting.
- Automatic evacuation on battery's.
- Manual Break release (sev) key in gearless panel
- Number of floors up to 64 floors.
- Speed range up to 4.0m/s.
- Group operation up to 8 lifts
- Car wiring with CAN bus serial communication.
- Remote connection to ARCODE with Can bus pluggable handset.
- SD-card for updating the firmware and storing data.

Motor Features

The new gearless Montenary Elevator Motors responds to one of the most demanded lift systems in the Indian market. It maximizes installation needs and cost optimization while enhancing ride comfort and safety which is for us a priority. An eXcellent ride starts with Montenary Motors.

KEY FEATURES:

- AUTO Break Systems with Disc Brakes.
- High Energy Efficiency
- Low Noise Levels.
- Corrosion Protection by Special Coating
- Self-Lubricated Bearings to ensure Lifelong Lubrication
- High Strength & Durable Traction Sheaves
- Double Electrical Circuit Brakes
- Payload upto 6500 Kgs
- Speed upto 4.0 MPS
- Disc Brakes Certified against UCM (Unintended Car Movement)
- Traction Sheave diameter of 120 mm to 640 mm
- In Built ERN-1313 German Encoders
